

# Ming Chuan University Food Service Inspection Committee Organizational Charter

Revised and passed at the Administrative Council Meeting on March 14, 2005

Revised and passed at the Administrative Council Meeting on November 7, 2011

Revised and passed at the Administrative Council Meeting on April 25, 2016

- Article 1 Ming Chuan University Food Service Inspection Committee (hereafter referred to as the Committee) Organizational Charter was established according to the University Sanitation Law and Ministry of Education's policy of Practical Guidelines for Managing Food Sanitation at Institutions of Higher Education to execute sanitation supervision of campus foodservice facilities and kitchens, to ensure food safety and sanitation for all university staff and students, and to prevent campus food poisoning-related incidents.
- Article 2 The responsibilities of the Committee are as follows:
1. Establish Food Service Inspection Subcommittee in order to implement sanitation procedures for campus foodservice.
  2. Offer suggestions to improve campus food service sanitation-related equipment and facilities.
  3. Oversee inspection of nutrition guides, food safety, and foodservice employees' zeal for food sanitation and service at campus foodservice facilities.
  4. Ensure general physical health examinations for all campus food service employees.
  5. Ensure that all campus foodservice employees participate in sanitation training programs.
  6. Promote student food service sanitation education and training programs.
  7. Discuss and revise regulations related to campus foodservice inspection and foodservice sanitation management.
  8. Advise campus foodservice vendors on price adjustments and food safety issues.
- Article 3 The President of Ming Chuan University serves as the Committee chairperson. The Vice President for Administrative Affairs serves as the Committee's deputy chairperson. The ex-officio committee members comprise Dean of Academic Affairs, Dean of Student Affairs, Dean of General Affairs, Executive Director of Human Resources Division, Executive Director of Taoyuan Campus Administration Division, Controller, Assistant Dean of Student Affairs, Deputy Executive Director of Taoyuan Campus Administration Division, Section Chief of Student Advising of Student Affairs Division, Section Chief of Campus Health Services, Section Chief of Taoyuan Campus Student Affairs and Section Chief of Taoyuan Campus General Affairs. Furthermore, each School is to please recommend one faculty representative and one alternate, Extracurricular Activities Section of Student Affairs Division on both Taipei Campus and Taoyuan Campus appoint four student representatives and two overseas student representatives to serve as supervisory Committee members.
- Article 4 The term of the Committee members is one academic year and is renewable. Members are not paid for their service. The period begins on August 1 and runs till next year July 31. The Committee will be reorganized before July each year.
- Article 5 The term of a Committee member can be altered due to position change or other reasons, and this is treated as a resignation. The newly appointed administrator assumes the position and serves until the preceding term expires.
- Article 6 Dean of Student Affairs serves as the Committee convener and Section Chief of Campus Health Services serves as the Committee's executive secretary. Staff of Campus Health Services Section will be appointed as officer, or the Committee members may request that the MCU President appoint a nominated faculty or staff member for the position.

- Article 7 If necessary, a provisional meeting of the Committee will be held and moderated by the Committee convener. In principle, a meeting will be held once each semester.
- Article 8 The Committee must have a quorum of more than half of the members present to conduct a meeting, and resolutions can only be passed by agreement of a majority of those in attendance.
- Article 9 Matters not covered in this organizational charter should be processed in accordance with other related University regulations.
- Article 10 Upon being passed at the Administrative Council Meeting and approved by the President, this organizational charter was announced and implemented. Any revision must follow the same procedure.

# Ming Chuan University Food Service Committee Inspection Procedures

Revised and passed at the Administrative Council Meeting on April 25, 2016

- Article 1 In order to improve mechanisms for campus food service inspection and sanitation management, Ming Chuan University Food Service Committee Inspection Procedures were established (herein referred to as the procedures). These procedures were established according to the Ministry of Education's policy of University Sanitation Law, Ming Chuan University Guidelines for Managing Food Sanitation and Ming Chuan University Food Service Inspection Committee Organizational Charter.
- Article 2 To manage the sanitation inspection procedures of campus foodservice establishments, members of Food Service Inspection Committee comprise Dean of Academic Affairs, Dean of Student Affairs, Dean of General Affairs, Executive Director of Human Resources Division, Executive Director of Taoyuan Campus Administration Division, Controller, Assistant Dean of Student Affairs, Deputy Executive Director of Taoyuan Campus Administration Division, Section Chief of Student Advising of Student Affairs Division, Section Chief of Campus Health Services, Section Chief of Taoyuan Campus Student Affairs and Section Chief of Taoyuan Campus General Affairs. Furthermore, each School is to please recommend one faculty representative, four Student Government Association representatives and two overseas student representatives to serve as supervisory Committee members.
- Article 3 The responsibilities of the University Food Service Inspection Committee members are as follows:
1. Attend the University Food Service Inspection Committee meeting.
  2. Regularly and sporadically conduct campus foodservice inspection.
  3. Provide sanitation management suggestions to the campus foodservice establishments, Student Affairs Division and General Affairs Division.
- Article 4 Campus food service inspection implementation procedures are listed as follows:
1. Food Service Inspection Committee members, either in groups or as individuals, conduct inspections at least once per month based on Ming Chuan University Food Sanitation Management Checklist.
  2. Campus Health Services Section of Student Affairs Division will sent monthly inspection results to the individuals responsible for campus foodservice establishments for future improvement; the results will also be submitted to Food Service Inspection Committee chairperson (President) for review and filing.
  3. Food Service Inspection Committee members can make suggestions at any time; Campus Health Services Section of Student Affairs Division will track improvements of noted situations.
- Article 5 Food Service Inspection Committee will hold a meeting every semester to discuss how to improve campus dining service related matters.
- Article 6 Food Service Inspection Committee members execute items based on Ming Chuan University Procedures for Managing Food Sanitation.
- Article 7 Matters not covered in these procedures should be processed in accordance with other related University regulations.
- Article 8 Upon being passed at the Administrative Council Meeting and approved by the President, these procedures were announced and implemented. Any revision must follow the same procedure.

# Ming Chuan University Procedures for Managing Food Sanitation

Revised and passed at the Administrative Council Meeting on April 25, 2016

- Article 1 These procedures were established in accordance with the Ministry of Education's policy of University Sanitation Law, Procedures for Sanitation Management of School Foodservice Consumer Cooperatives, and the January 2016 revision of Practical Guidelines for Managing Food Sanitation at Institutions of Higher Education.
- Article 2 All food court employees, including cooks and food servers, are required to have a physical health check-up once a year which should comply with *Physical Checkup for Foodservice Employees* including chest x-ray, serology test, and skin disease test. Before the semester begins, employees should submit their health checkup reports to the Campus Health Services Section to list for one year reference and for follow up counseling. If the report is not submitted at said time, punishment is incurred in accordance with the regulations. In addition, the University reserves the right to require the employees to cease working or to suspend the business, with no objection.
- Article 3 Vendors' sanitation managers and foodservice employees shall attend at least one sanitation seminar or training 8 hours in a year held by the central competent health authority or other approved institutions and keep the attendance proof for reference.
- Article 4 Campus foodservice cooks shall hold a qualified technician certificate and participate in a chef certification workshop in accordance with regulations.
- Article 5 Campus foodservice employees must comply with the following regulations regarding their personal hygiene.
1. Foodservice employees must wear clean working clothes and head coverings or mesh caps to over their hair effectively in order to keep hair, dandruff or other materials from falling into foods.
  2. Foodservice employees shall wear a mask that covers mouth and nose whether having a direct or indirect contact when cooking, processing instant food without heating or cutting cooked foods.
  3. Foodservice employees shall always keep their hands clean and shall not have long nails or nail polish, decorations (such as rings, bracelets, and watches, etc.), nor any cosmetics or medicine on the skin that may cause food contamination or be in contact with food. They shall wash and sanitize their hands thoroughly in accordance with *Steps of Proper Hand Washing for Food Servers*.
  4. While preparing foods, employees must not eat, smoke, chew betel nut or gum, chat intentionally for a long time, sing, or engage in any other behaviors that may cause possible food contamination.
  5. If foodservice employees have wounds on their hands, they shall wear clean waterproof or latex gloves after proper bandaging. They shall change and disinfect their gloves regularly and are not allowed to have direct contact with instant foods. Instant foods are edible goods with no cooking steps before serving.

Article 6 Workspace facilities planning, maintenance and management should be in a safe and clean environment which distinguishes among contaminated area, quasi-clean area, clean area, and general work area by moving lines of work, food storage, kitchen drain and grease trap functions, and cooking safety, to avoid cross-contamination of ingredients. Employees are required to always maintain a clean environment.

Article 7 Restaurant and kitchen equipment and management must comply with the following regulations:

1. At the workplace entrance there should be hand washing and hand drying equipment, as well as hand-washing brush with hygiene kit, and a diagram showing proper handwashing.
2. Screen doors, window screens, air curtains and other anti-bacterial equipment must be installed at kitchen entrances, exits, doors, windows and other passages. Floor mats should also be placed near the entrances.
3. The inside and surrounding areas of the facility shall be clean without any traces of disease vectors and shall be cleaned and disinfected at least once every month. Prior to disinfection, please notify the General Affairs Division at least 3 days in advance and fill in and photograph the *Disinfection and Vector Control Form* for the record. After disinfection, please submit the photos to Campus Health Services Section for reference.
4. Use separate cutting boards and cutting tools for raw meat and cooked meat. Sanitize the cutting **boards and cutting tools after use and place them in proper storage devices.**
5. Shall have adequate freezing and refrigeration equipment the temperature of which can be viewed from the outside and which can be kept clean. Temperature for refrigerator should be below 7°C, freezer below 18°C, and thermos above 60°C. Stored food shall be properly packaged and marked. Be sure to complete the *Refrigerator (Freezer) Temperature Record Form* every day.
6. Foods, tableware, containers, and packaging materials shall not directly touch the ground, and shall be kept at least 5 cm away from the walls and 15 cm above the ground to prevent food contamination.
7. Maintain a smooth, odor-free drainage system. The floor shall be clean with no accumulated water.
8. Set up designated garbage cans and food waste barrels with lids to implement recycling. Garbage cans shall be washed daily and kept clean.
9. Certified fire-fighting equipment must be installed in kitchen.
10. It is prohibited to house or care for any animals in the restaurant or workplace.
11. Personal belongings should be placed in a specific area, not in the food preparation area.
12. Complete self-inspection every day in accordance with the attachment to these procedures, *Ming Chuan University Food Sanitation Management Checklist* and submit the checklist to the Campus Health Services Section of Student Affairs Division every month for reference.
13. Other: For further details, please refer to the attachment to these procedures, *Ming Chuan University Food Sanitation Management Checklist*.

Article 8 Tableware sanitation management must comply with the following regulations:

1. Foodservice establishments should provide a sufficient number of eating utensils. For dining in, the facility is not to take the initiative to provide disposable utensils, and takeaway is restricted to

disposable paper tableware.

2. In accordance with the relevant rules of Article 21 of Waste Disposal Act: Foodservice in private schools shall not provide plastic bags of less than 0.06 mm in thickness. If a plastic bag of 0.06 mm thickness or more is to be provided, consumers need to pay an additional fee for the bag which cannot be included in the cost of purchased goods. Any violators are sanctioned in accordance with Item 3, Article 51 of Waste Disposal Act.
3. When handwashing is used for cookware or tableware, it shall follow the standard of three-sink handwashing. If there is no three-sink equipment, it is not permissible to use the same sink to clean foods, containers, and tableware; and it is required to use specified detergent that conforms to relevant food sanitation regulations.
4. Tableware should be cleaned and effectively disinfected, and placed in tableware storage cabinets. The storage cabinets should be sufficient to accommodate all dishes in a clean area.
5. Cookware or tableware with any chips or cracks shall be discarded and shall not be used in serving or as dinnerware.
6. Starch and fat residues test shall be conducted every week; and substandard results must be followed up by improvement and tracing management.
7. Set up grease traps and clean at least once every day. Also, fill in the relevant cleaning record for reference.
8. Other: For further details, please refer to the attachment to these procedures, *Ming Chuan University Food Sanitation Management Checklist*.

Article 9 Water use in restaurants and kitchens must comply with the following regulations:

1. Shall set up water reservoir and water supply equipment, and appropriate protective measures (such as check valves) keeping water at least three meters away from possible contamination from filthy places, septic tanks and any other pollution sources.
2. Tap water supply area shall use tap water as the water source. Groundwater shall not be used for cooking.
3. Drinking water and non-drinking water pipes should be completely separated and labeled; they cannot be used interchangeably.
4. Water reservoir (tower, sink) shall be cleaned at least once every year. Prior to disinfection, please notify the General Affairs Division 3 days in advance. After disinfection, please submit photos to Campus Health Services Section for reference.
5. Other: For further details, please refer to the attachment with these procedures, *Ming Chuan University Food Sanitation Management Checklist*.

Article 10 Ingredients, materials, and food preparation sanitation management must comply with the following regulations:

1. All ingredients and materials should be from legitimate sources. Meat ingredients must meet health inspection standards, and, each semester, campus food vendors should take the initiative to provide relevant proof of purchase for checking.
2. Packaged foods shall be sealed and completely labeled. Use of raw materials or semi-finished

products shall be based on the “first in, first out” principle to avoid mixed-use. Also, materials that have exceeded shelf life are not to be used.

3. Clean foods shall be placed on stainless steel shelves where vegetables are on the top layer and meat and fish on the bottom. Food containers shall not have holes.
4. Heating-Hot Food Holding Center temperature shall not be lower than 60°C. Prepared foods shall not be left at room temperature more than two hours. No expired or deteriorated foods are allowed.
5. Dishes, leftovers, or dips not made that day shall be discarded; their reuse is prohibited.
6. Deep-fryer oil shall be tested regularly and *Change of Deep-fryer Oil Form* should be filled in. Once every week, the University campus health management staff is to examine the oil. Vendors not meeting qualifications the first time must provide the text paper for follow-up second examinations.
7. Food suppliers shall use ziplock bags or sealed plastic bags to completely seal high water activity and low acidic foods for storage in the refrigerator freezer (below 7°C) at the Campus Health Services Section with indication of date and meal. If no one has any abnormal reaction after 48 hours, it then can be discarded.
8. Regular ingredient safety inspection shall be arranged, and improvement and tracing management shall be applied to cases not meeting standards.
9. Edible ice cubes in dining places shall comply with health sanitation regulations. Ice shovels and ice scoops shall be placed in specific areas, not in the ice machine. This shall be checked at least once every academic year. Vendors are responsible to send out the ice to a test unit and paying the related fee.
10. Other: For further details, please refer to the attachment to these procedures, *Ming Chuan University Food Sanitation Management Checklist*.

Article 11 Before 12 noon on the day that food is served, each vendor shall log in to the *Ingredient Platform* and renew the meal information such as daily menu, all ingredients (including seasoning), and food suppliers.

Article 12 If the University discovers suspected food poisoning cases, emergency first aid measures shall be undertaken. When necessary, infected individuals will be sent to hospital and their family or emergency contact person will be notified. At the same time, the University shall contact and help local health agency to deal with the situation, and report to the central competent health authority immediately.

Article 13 If the University foodservice is contracted, the person in charge and relevant personnel shall enforce cafeteria sanitation management and insure their operations with accident insurance and food liability insurance in accordance with these procedures and relevant regulations.

Article 14 Penalties: All vendors shall comply with these procedures and the attached Ming Chuan University Food Sanitation Management Checklist. Any violation shall be dealt with in accordance with relevant regulations:

1. ★★ means “Major Items”: A penalty of NT\$1,000 and deadline for improvement are sanctioned on those who fail for the first time to meet standards on the same item. Incomplete improvement and repeated violations will be fined an additional NT\$1,000 each time.

2. ★ means “Minor Items”: For the first violation on the same items, the attached form *Deficiency Improvement Notice* is addressed to vendors to request improvement by a certain time. Incomplete improvement and further violations will be fined NT\$1,000 each time; and thereafter, repeat offenders will be fined an additional NT\$1,000 each time.
3. No ★ mark means “General Items”: For the first two violations on the same item, the attached form *Deficiency Improvement Notice* is addressed to vendors to request improvement by a certain time. Incomplete improvement and further violations will be fined NT\$500 each time; and thereafter, repeat offenders will be fined an additional NT\$500 each time.
4. In regard to the calculation cycle of violations stated in Article 14, Clause 1, 2, and 3, a month is the statistical unit; violation frequency is recounted each month.
5. Food and beverage sanitation incidents shall be dealt with in accordance with the attributes of *Foreign Objects in Food* as follows:
  - (1) Acceptable natural products such as vegetable caterpillars and snails, etc. – Refund the cost to the customer. Though there is no fine, if more than two bugs are found, one *Deficiency Improvement Notice* is recorded and this is dealt with according to Article 14, Clause 3 “General Items.”
  - (2) Negligence during food processing such as steel wire brush, gravel and burnt coal, etc. – Besides refunding the cost to the customer, vendor also needs to pay the customer NT\$500. One *Deficiency Improvement Notice* is recorded and this is dealt with according to Article 14, Clause 3 “General Items” with supervision for immediate improvement.
  - (3) If an incident is related to disease vectors (flies, bugs), rice weevils, cockroaches, ants, or soured, rotten, or moldy food, etc, it is dealt with in accordance with Article 14 Clause 1 “Major Items” and 30% of the fine for this item is allotted as compensation to the customer.
6. If food poisoning is suspected, as necessary, the business shall be suspended while health unit investigation proceeds. If it is found to be due to negligence, the restaurant shall take full responsibility and do all it can to compensate the victims. Compensation for victims’ suffering and penalties are discussed at a separate meeting. Vendor may re-open the business upon re-examination showing improvement. The University may terminate the contract depending on the severity of the incident.

Article 15 Concurrent with the date of implementation of these procedures, Ming Chuan University Procedures for Managing Food Sanitation passed on March 21, 2005 are abolished.

Article 16 These procedures and the attachment, Ming Chuan University Food Sanitation Management Checklist, are the ex-officio documents for the University agreements with foodservice vendors. Matters not covered in these procedures should be processed in accordance with other related University regulations.

Article 17 Upon being passed at the Administrative Council Meeting and approved by the President, these procedures were implemented. Any revision must follow the same procedure.
